## Budget Process

One of the most important activities undertaken each year by the City is the budget process. The quality of decisions made in the budget process conveys the City's long-range plans and policies for current and future services.

The budget is a financial, planning, and policy document which reflects the allocation of limited revenue among competing uses and serves as a guide for the various departments in implementing their goals and objectives.

Annual budgets are adopted for the General, Capital Projects, Debt Service, and Proprietary Funds. Within the General fund, budgets are prepared for each major department. For example, Elections, Administration, Fire Department and Streets are departments within the General fund.

Budgeted amounts are reported as originally adopted. Budgeted expenditure appropriations lapse at year-end. The City's department heads may make transfers of appropriations within their department. As better information becomes available, the budget may be amended by the City Council. The budgetary level of control is at the department level.

The budget process is a year-round activity because regular reporting is necessary to provide accountability, understanding, and confidence in the City. The City provides different types of reporting to facilitate this process. These reports include: monthly department reports, monthly capital project reports, monthly cash balances reports, budget document, and an audited comprehensive annual financial statement.

The City follows the procedures below in establishing the budget:

The annual budget process begins in July of each year. Budget worksheets are supplied to all City departments/departments heads. The City Administrator/Finance Director conducts budget assistance meetings (if necessary) with departments/department heads. Budget requests and supplementary information from all departments/department heads must be received by early August. The City Administrator/Finance Director meets with departments/department heads to discuss budget requests. Total budget requests are compared to revenue estimates to ensure that there is funding available to fund the proposed expenditures. Budget workshops are held with the City Council and citizens interested in participating in the budget process. The City Administrator/Finance Director meets with departments/department heads to discuss and review recommended budget and associated changes. In early September, the City sets the preliminary levy and the public hearing information, which is forwarded to the County Auditor by September 30th each year. In September-October, additional budget workshops are held with the City Council (if necessary). The County mails parcel specific tax notices in November to property owners providing taxes due the following year based on the preliminary levy. A budget and levy hearing is held in December in accordance with State law. The budget and tax levy are adopted through passage of resolutions.
